125 Years of History

Fabio Baretta Paleari

CEO

Baretti was founded in 1890 by my grandfather Giovanni Baretti. Since then, Baretti has seen several transformations and gone through evolutions to meet the required market needs and the socio-economic changes. Among all, I would like to mention the most vital and successful ones.

During the fifties, inspired by Mr. Enrico Mattei, the President of ENI, we entered into the business of the equipment for the newly world-wide and growing hydrocarbon industry. Then, we added the construction and installation of Marine Loading Arms and special facilities for the berthing of oil super tankers.

In eighties, we started to design and to construct special high-precision mechanical manufacturing machines. Even, we manufactured components for nuclear plants, as per that period, the most advanced certified quality management system.

Today, our business is focused upon technologies for the hydrocarbon processing industry and separation components. But what we have learned and experienced in the course of the past 125 years still permeates the company. We learned the importance of our Customers and earned their respect. We value the importance of passionate Employees.

We still have the same enthusiastic entrepreneurial spirit, which took me

to USA, almost 50 years back, to acquire license for tray' technologies creating new opportunities. We still strive for innovative technologies, products and applications. Nowadays, our products are present in almost every country having hydrocarbon processing industries but we still follow few basic but very important principles:

- Be humble and be curious: every day we can learn something new
- Act in good faith: leave up to our conscience with honest words and actions
- Struggle for Quality: Neither mistakes nor delays are allowed
- Meet Customer Satisfaction: Give the best product at the best price
- Practice Safety: life is the most important gift that God has given us

In the course of all these years, I am very proud of the results we have achieved and I personally present my gratitude to all our Customers and Employees.

However, every day we are working for a better future where we see Baretti growing into a more profitable company and expand its reach in every corner of the world with the wish of adding value to Customers and Civil-Society while keeping in harmony with the global environment.

Packing Replacement

Random & Structured Packing	8
-----------------------------------	---

Tray Replacement

Trays & Tray Parts	9
Bubble Caps & Tray Components	9

Baretti Valves

BARETTI BDH - Standard Valve

Carbon Steel
Thickness 1.0 to 2.0 mm

Stainless Steel & All Types of Alloy
Thickness 1.0 to 2.0 mm

BV-1 & BV-2 Valves

Carbon Steel
Thickness 1.0 to 2.0 mm

Stainless Steel & All Types of Alloy
Thickness 1.0 to 2.0 mm

BA-2 Valve with Travel Stop

Carbon Steel
Thickness 1.0 to 2.0 mm

Stainless Steel & All Types of Alloy
Thickness 1.0 to 2.0 mm

Market Equivalent Valves

V1 & V4 Valves

Carbon Steel
Thickness 1.0 to 2.5 mm
(Equivalent weight)

All Types of Alloy
Thickness 1.0 to 2.5 mm
(Equivalent weight)

Bolting

BOLTS

Carbon Steel
M10, M12, 3/8 UNC
Lengths 25, 35, 50 mm

Stainless Steel & All Types of Alloy
M10, M12, 3/8 UNC
Lengths 25, 35, 50mm

NUTS

Carbon Steel
M10, M12, 3/8 UNC

Stainless Steel & All Types of Alloy
M10, M12, 3/8 UNC

J Bolts

Carbon Steel
All lengths & sizes

Alloy
All lengths & sizes

Gaskets

Washer gaskets
Fiberglass, Teflon, Gore-tex

Tape Gaskets

Clamps & Studs

Manway Lock Washers

Carbon steel Thickness 5 mm
Alloy Thickness 3 mm

Manway Lock Studs

Carbon steel M10 or 3/8 UNC
Alloy M10 or 3/8 UNC
Lengths 50 & 65 mm

Standard Clamps
Carbon Steel,
Stainless Steel & Alloy

Market Equivalent Clamps

Carbon Steel,
Stainless Steel & Alloy

Washers

Flat Washers

Carbon steel 44 x 11 x 3,5 mm

Alloy 44 x 11 x 2 mm

Carbon steel 35 x 11 x 3,5 mm

Alloy 35 x 11 x 2 mm

Domed Washers

Carbon steel 44 x 11 x 3,5 mm

Alloy 44 x 11 x 2 mm

Carbon steel 35 x 11 x 3,5 mm

Alloy 35 x 11 x 2 mm

Seal Plates

Seal plates

Carbon Steel 65 to 150 mm

Thickness 3,5 mm

Alloy 65 to 150 mm

Thickness 2.0 to 3.0 mm

Angle Hanger

Carbon Steel 80 to 150 mm

Thickness 3,5 mm

Alloy 80 to 150 mm

Thickness 2.0 to 3.5 mm

PACKING REPLACEMENT

Random & Structured Packing

Baretti Metal Random Packing - BMRP

15, 25, 40, 50, 60, 70

All types in metal materials are available even on emergency basis

Pall Rings

5/8 ", 1 ", 1.5 ", 2 ", 3 "

All types in metal materials are available even on emergency basis

Any other type of Market Equivalent Rings are available on request

B - 64 Structured Grid for Severe Services

Any kind of stainless steel material are available on emergency basis.

Baretti Structured Packing

B-125, B-200, B-250, B-350, B-250-HC, B-350, B-350-HC

All types in metal materials are available even on emergency basis

Baretti Structured Packing and Grid have a fully welded assembly for improved mechanical resistance and easier installation and cleaning.

TRAYS REPLACEMENT

Trays & Trays Parts

Bubble Caps & Trays Components

Carbon Steel, AISI 410S, AISI 304 & 304L, AISI 316 & 316L, AISI 317, AISI 321 Incoloy, Monel and other materials: normally available from stock.
